

**Skynetwest, LLC:** Leading providers of Data Retrieval in aspects of Aerial Mapping and Infrastructure Inspection. For building inspection services, our UAS are fully capable of doing an initial inspection all the way to an in-depth inspection, using thermal and infrared technology. UAS Aerial Mapping offers high area output and remarkable position accuracy. It is a very efficient supplement to traditional survey methods. We produce actionable data by mapping land, areas and objects for preparation of site plans, contour maps and summary of existing condition at the beginning of project by orthophotos, photogrammetry, 3-D modeling, point clouds or volume calculations

We also offer the same high level of expertise, service, and support for private, state, and federal sectors. Our professional and diversified staff are more than knowledgeable, they are quality-oriented employees that offer a hallmark of excellence in customer satisfaction and results. Satisfied, loyal, and repeat customers are the heart of Skynetwest's success and future. Skynetwest believes in upholding the highest levels of integrity in all relationships with our customers, clients, and communities.
